FRIDAY EVENING, DECEMBER 15.

OUR UNIVERSITIES.-When shall we ever have in America great Universities, capitals of science and learning, like those of England and Germany? Never till we consolidate our resources, as they have done. If many socalled colleges, but which are in reality only academies, of the North and West, were combined in two or three Universities, they would be grand establishments indeed. The same is true of the South. We have lately seen with great regret a statement showing a diminished number of students at all the Virginia Universities and Colleges. All of them put together, in the best times, would not compare in numbers with the great European Universities. One or two Universities would be enough for the South. They might soon have an Oxford and Cambridge if this course were pursued. Thus the most competent professors in the world in every department of science might be employed, and at the same time the rates of tuition be greatly lowered. In Germany the terms of the great Universities are so reasonable, that poor men are able to send their sons to them. It ought to be so here. but every one knows it is not.-Lynch. News.

A SAD STORY .- Miss Annie Glover was born in Glasgow, Scotland, became an actress, and was left a fortune of eighty thousand dollars, with which she came to this country, and married a man named Barry, who squandered all her money. She obtained a divorce from her husband, and after ward performed at most of the Western theatres. She was induced to re-marry her former husband, but was forced to leave him a second time. At the time of the great fire in Chicago she was burned out, and wandered through the streets half clad and penniless during the prevalence of the confla-gration. She caught a severe cold and was taken by a friend, almost as poor as herself, to St. Louis, where on the 22d ult., she died, aged only twenty-four years, and her body consigned to the grave at the public expense.

NATTANS' CRYSTAL DISCOVERY NATTANS CRYSTAL DISCOVERY

NATTANS CRYSTAL DISCOVERY is put up in large bottles; containing over half as much more as any other in the market, while its effects are more prompt and positive; therefore, it is certainly the most economical article in use. In short, there are a thousand reasons why you should use it in preference to any other—reasons which have induced the masses who use hair restorers to use it—and chief among which is the perfect safety with which you can apply it. Try it, if you have not done so already, and though you may have used something before, or for years even, yet we can assure you that after giv-ing CRYSTAL DISCOVERY a trial, you will gladly discard your previous favorite.
